Q.7 Six friends Mayank, Varisha, Raju, Laxmi, Shivani and Meena who scored different marks in exam out of 100 but not necessarily in same order. Laxmi who scored 76 marks is younger than Mayank but older than Meena and Shivani. Varisha is younger than Raju who scored 98 marks. Difference of Raju and Varisha's marks is 11. Maynk's marks is just reverse digit of Varisha's marks. Mayank is younger than Varisha. Shivani is not the youngest among all. Meena scored 55 marks while Shivani scored 12 marks more than Meena and 9 Marks less than Laxmi.

Which of the following statement is true based on the above information?

- I. Varisha is youngest in all.
- II. Laxmi scored 76 marks.

Ans X 1 Neither I nor II

× 2. Only I

X 3. Both I and II

4. Only II

Q.17 A sentence is missing in the paragraph given below. Decide in which blank (i.e., 1, 2, 3 or 4) the following sentence would fit best.

Sentence:

Nay, education would even help them in the performance of the narrowest sphere of womanly duty.

Paragraph:

It is the height of selfishness for men, who fully appreciate in their own case the great advantages of a good education, to deny these advantages to women. (1)_____. There is no valid argument by which the exclusion of the female sex from the privilege of education can be defended. (2)_____. It is argued that women have their domestic duties to perform and that if they were educated, they would bury themselves in their books and have little time for attending to the management of their households. (3)_____. But women are no more liable to this temptation than men and most women would be able to do their household work all the better for being able to refresh their minds in the intervals of leisure with a little reading. (4)_____. For, education involves knowledge of the means by which health may be preserved and enables a mother to consult such modern books as will tell her how to rear up her children into healthy men and women and skillfully nurse them when disease attacks her household.

Ans

To avoid the various foolish opinions which mankind holds, no superhuman genius is required. A few simple rules will keep you, not from all error, but from silly error. If the matter is one that can be (1)___ by observation, make the observation yourself. Aristotle could have avoided the mistake of (2)___ that women have fewer teeth than men, by the simple device of asking Mrs Aristotle to keep her mouth open while he (3)__. He did not do so because he thought he knew. Thinking that you know when in fact you don't is a fatal mistake, to which we are all (4)___. I believe myself that hedgehogs eat black beetles, because I have been told that they do; but if I were writing a book on the habits of hedgehogs, I should not (5)___ myself until I had seen one enjoying this unappetizing diet. Aristotle, however, was less cautious. Ancient and medieval authors knew all about unicorns and salamanders; not one of them thought it necessary to avoid dogmatic statements about them because he had never seen one of them.

Ans

1. counted

X 2. opened

3. watched4. closed
